THE ATMOSPHERE AND CLIMATE

REVIEW

1.- Write the name of the layers of the atmosphere:

5.- _____

4.- _____

3- _____

2.- _____

1.- _____

Troposphere
Stratosphere
Exosphere
Thermosphere
Mesosphere

LIVEWORKSHEETS

2.- Fill in the gaps:

_____:

→ This layer protects us from objects from outer space, for instance: meteorites.

_____:

→ The ozone layer is here.

→ It protects us from the Sun's Rays.

_____:

→Most of the atmospheric phenomena happen in this layer.

_____:

→ The Aurora Borealis happens here.

_____:

→ the coldest layer.

→shooting stars can be seen here.

Mesosphere Stratosphere

Troposphere Thermosphere

Exosphere
