

OPERACIONES CON UNIDADES DE LONGITUD, MASA Y CAPACIDAD

Coloca bien los números y calcula.

$$27.322 \text{ dam} + 42.789 \text{ m} = \quad \text{m}$$

A cloud-shaped frame containing a base ten blocks grid. The top row has 7 blocks (1 grey, 1 blue, 1 red, 1 green, 1 purple, 1 light blue, 1 orange). The bottom row has 7 empty boxes. A horizontal line separates the two rows.

$$148 \text{ kl} + 32.887 \text{ dl} = \quad \text{dl}$$

A cloud-shaped frame containing a base ten blocks grid. The top row has 7 blocks (1 grey, 1 blue, 1 red, 1 green, 1 purple, 1 light blue, 1 orange). The bottom row has 7 empty boxes. A horizontal line separates the two rows.

$$2.824 \text{ g} - 69.123 \text{ cg} = \quad \text{cg}$$

A cloud-shaped frame containing a base ten blocks grid. The top row has 7 blocks (1 grey, 1 blue, 1 red, 1 green, 1 purple, 1 light blue, 1 orange). The bottom row has 7 empty boxes. A horizontal line separates the two rows.

$$566.121 \text{ mm} + 67.433 \text{ cm} = \quad \text{mm}$$

A cloud-shaped frame containing a base ten blocks grid. The top row has 7 blocks (1 grey, 1 blue, 1 red, 1 green, 1 purple, 1 light blue, 1 orange). The bottom row has 7 empty boxes. A horizontal line separates the two rows.

$$15.428 \text{ kl} - 838.994 \text{ l} = \quad \text{hl}$$

A cloud-shaped frame containing a base ten blocks grid. The top row has 7 blocks (1 grey, 1 blue, 1 red, 1 green, 1 purple, 1 light blue, 1 orange). The bottom row has 7 empty boxes. A horizontal line separates the two rows.

$$575 \text{ dg} + 5.617 \text{ g} = \quad \text{cg}$$

A cloud-shaped frame containing a base ten blocks grid. The top row has 7 blocks (1 grey, 1 blue, 1 red, 1 green, 1 purple, 1 light blue, 1 orange). The bottom row has 7 empty boxes. A horizontal line separates the two rows.
