A chalkboard with the following equations and a cartoon character:

$$\begin{array}{l} A + C = D \\ A \times B = C \\ C - B = B \\ A \times 4 = D \\ ABCD = \square \square \square \square \end{array}$$

The equations are written in different colors: A is red, B is purple, C is yellow, and D is green. The number 4 is orange. To the right of the equations is a cartoon character with blonde hair, wearing a white shirt and a tie, looking thoughtful. Above the character are three question marks.
