

4. Listen to the dialogue and circle the correct answers.

Track 16

People on the move

Mom : Hi, Santana. What did you learn at school today?

Santana: Hi, mom. Today was really interesting, we learned about people on the move. Our teacher taught us about different modes of transport.

Mom : And what did you learn about them?

Santana: I learned about how tractor trailers **transport liquids / transport products** like fruits and vegetables to supermarkets. We had a police officer visit the school. He was showing us the police car that he uses to **patrol the city / pick up the garbage** and all of a sudden, my friend Annabel started to feel really sick. The director had to take her to the hospital.

Mom : Oh no! You should call her later to find out if she's better and remember that before you do your homework, you have to take out the garbage because the truck will be **picking it up / plowing the fields** soon.

Santana: No problem. Were you expecting a **give a ride / food delivery**? There's a delivery van outside.

Mom : Yes, I am.

5. Role play.
