

Resta de fracciones heterogéneas

Resta . Escribe la respuesta en la forma más simple

a) $\frac{5}{9} - \frac{1}{3} = \underline{\quad} - \underline{\quad} = \underline{\quad}$

b) $\frac{7}{10} - \frac{2}{5} = \underline{\quad} - \underline{\quad} = \underline{\quad}$

c) $\frac{1}{2} - \frac{1}{10} = \underline{\quad} - \underline{\quad} = \underline{\quad} = \underline{\quad}$

d) $\frac{5}{6} - \frac{1}{12} = \underline{\quad} - \underline{\quad} = \underline{\quad} = \underline{\quad}$

e) $\frac{3}{4} - \frac{7}{12} = \underline{\quad} - \underline{\quad} = \underline{\quad} = \underline{\quad}$
