Subject Geo project

Hi Poppy,
I've got a sore throat and a runny nose, so Gran says I *have to / has to* stay at home tomorrow. I'm happy because I *don't have to / doesn't have to* go to school ;). But we *have to / has to* finish our project. Don't worry, you *doesn't have to / don't have to* come here. We can chat and work online. I think it's a good idea. Is 4 p.m. OK or *you have to / do you have to* go out then? I can't chat before that because Gran says she *has to / have to* use the computer.
Elza
