

Electrical Tools

All employees of Talbot Electrical Services will bring their own tool kits. Tool kits need to contain the basic tools needed for electrical jobs. These basic tools are sold at most hardware stores. Pliers are needed for pulling and cutting wires. Your kit needs to include **long nose pliers (1)** and **end cutting pliers (2)**. Side cutters and diagonal cutters are recommended. You must have **wire strippers (3)** in your kit. Make sure they are able to strip the most common wires. You will also need several types of **screwdrivers (4)** on the job. A **flashlight (5)**, **measuring tape (6)** and **utility knife (7)** will round out your kit.

Read the text and match the words to the pictures

Match the words to the definitions

- 1 ___ tool kit 4 ___ long nose pliers
2 ___ side cutters 5 ___ measuring tape
3 ___ screwdriver 6 ___ wire stripper

- A a tool with blades able to grip or cut wires
