Whitby

Have you ever heard of Whitby? 1 Thousands of tourists visit it every year, but what brings them here? Why do they want to come to this place?

There are lots of reasons. 2 The oldest of these is a ruined abbey. It is more than a thousand years old and it is very interesting. To get to the abbey, you have to climb hundreds of steps, and you get very tired, but you won't be sorry. The abbey is at the top of a high cliff, and you can look down at the sea from there. 3

Whitby has a beautiful harbour and you can see lots of boats there. Tourism is important to Whitby, but fishing is also very important. 4

Some people come to Whitby because they want to walk along Cleveland Way. This is a long path and people walk along it to the top of the cliffs. You can look down and see the waves on the rocks below you. This wild, dramatic place is sometimes called the Dinosaur Coast, because people have found many dinosaurs here. 5.....

Whitby is also famous for another reason. Bram Stoker, the famous writer, came here on holiday in 1890. 6 In the book, Count Dracula is in a ship on his way to London. Strange things have happened on the voyage, and people

have disappeared. Then there is a storm and the ship is wrecked on the rocks near Whitby. Dracula arrives in the town, not as a man, but as a terrifying black dog.

So what do you think? Would you like to visit Whitby one day?

Just The Two of Us is my favourite book. It's about 'different' people, and it changed the way I think about lots of things.

The book tells the story of two American boys, Joe and Barney. They live in Wyoming. Joe is tall, strong and confident. He plays baseball for the school team and he has lots of friends. Barney's life is very different, and he is lonely. He was born with one leg shorter than the other, and he feels embarrassed because he has to

wear special shoes. For this reason, he doesn't want to play sport with the other boys – he is afraid they will laugh at him. He prefers spending his free time alone in the woods, and he watches and listens to the animals and birds.

One summer, Joe goes hiking alone in the woods. When he sees a wolf in front of him, he is scared and he runs through the trees, but he falls and breaks his leg. He lies there all night and all the next day, with no food or water. The noises around him terrify him.

Back in the town, Barney hears that Joe is missing and he decides to do something to help. He leaves his house in the middle of the night to find Joe, but he doesn't tell his parents. He cycles to the woods and spends hours there, looking for Joe. It is dark in the woods, but he isn't afraid because he knows the place very well. Before morning, he finds Joe, and their summer of adventures continues.

This exciting story, with its beautiful descriptions of Wyoming, shows us that people can surprise us.
