

The Saxophone

This instrument was a staple in **jazz** and **swing bands**. It became popular as a solo instrument and today is used in most styles of music.

Listen to Track 30. What emotions does the saxophone evoke in you?

Did you hear an off-beat? This is called **syncopation**. In your own words, explain this term.

Would anyone like to try creating **syncopation**?

Do you like the sound of the saxophone? Explain your opinion using specific details.
