

Sumar números de dos cifras sobrepasando la decena

$$25 + 28$$

Descompongo en mi cabeza los dos
números:

$$20 + 20 = 40$$

$$5 + 8 = 13$$

$$40 + 13 = 53$$

Otro ejemplo:

$$52 + 38 =$$

$$50 + 30 =$$

$$2 + 8 =$$

$$80 + 10 =$$

Y otro más:

$$65 + 17 =$$

$$+ \quad +$$

$$+ \quad =$$

$$+ \quad =$$

Ahora vamos a practicar:

$$36 + 44 =$$

$$+ =$$

$$+ =$$

$$+ =$$

$$67 + 26 =$$

$$+ =$$

$$+ =$$

$$+ =$$

$$58 + 24 =$$

$$+ =$$

$$+ =$$

$$+ =$$

$$33 + 28 =$$

$$+ =$$

$$+ =$$

$$+ =$$

$49 + 31 =$

$+ =$

$+ =$

$+ =$

$66 + 16 =$

$+ =$

$+ =$

$+ =$

$38 + 34 =$

$+ =$

$+ =$

$+ =$

$51 + 28 =$

$+ =$

$+ =$

$+ =$

$$39 + 32 =$$

$$+ =$$

$$+ =$$

$$+ =$$

$$57 + 24 =$$

$$+ =$$

$$+ =$$

$$+ =$$

$$26 + 36 =$$

$$+ =$$

$$+ =$$

$$+ =$$

$$34 + 15 =$$

$$+ =$$

$$+ =$$

$$+ =$$

$67 + 26 =$

$+ =$

$+ =$

$+ =$

$33 + 47 =$

$+ =$

$+ =$

$+ =$

$55 + 14 =$

$+ =$

$+ =$

$+ =$

$69 + 13 =$

$+ =$

$+ =$

$+ =$

Y ahora ya en un solo paso:

$$56 + 14 =$$

$$37 + 24 =$$

$$66 + 18 =$$

$$26 + 46 =$$

$$29 + 14 =$$

$$57 + 27 =$$

$$65 + 16 =$$

$$65 + 25 =$$

$$57 + 24 =$$

$$57 + 27 =$$

$$34 + 36 =$$
