

Read the blog. How many steps are there in the recipe?

Sweet Kitchen Blog

Most of the people have a smooth tooth. Especially cakes, chocolates, and cookies go well with a cup of coffee. They are always ready for my guests on the table. Today, I want to share my favorite recipe of cookie. It is easy to bake and my children want it every weekend.

Here are the ingredients:

- An egg
- 125 grams butter
- A glass of powdered sugar
- A cup of olive oil
- Some chocolate chips or blueberries

Let's start! First, mix the egg and butter. Second put powdered sugar. You can mix them about five minutes then, add the other ingredients. It has different ways liked baked with chocolate chips or blueberries. If you bake it with blueberries, it is a little bit sour but it is worth trying. Next, knead it well until you get soft dough. After that, you can put it with an ice-cream spoon or roll it. Finally, bake them at 180°C in preheated oven about fifteen minutes. They are tasty! Good appetite! If you try this, I will wait for your photos with my hashtag #cookielove
