## Apartment for rent

There are many ways to find an apartment.

One way is to search online. There are a lot of rental websites. There is usually an email to contact the landlord or the realtor on the website.

Another way is to look at the buildings. There are often "For Rent" signs on the front of the properties. There is usually a phone number on the sign.

You can call and ask for information, for example:

- How much is the rent?
- Is heat included?
- What floor is the apartment on?
- Is there an elevator?
- How many bedrooms are there in the apartment?
- How many closets are there in the apartment?
- Is the apartment available now?
- Is there a parking space for each tenant?
- Is there a laundry room in the building?

If you are interested you can visit the apartment and check if there are any problems. If there are, talk to the landlord, maybe he can fix the problems for you.
