

Standard IV Mathematics

Subtopic: Introduction to Collecting Data

Data is also known as information. Data can be collected by means of an interview, a questionnaire or observation. The method that you choose to collect your data will depend on the questions you are trying to find answers to.

A survey is a method of collecting data. You can carry out a survey by asking questions.

Favorite Pets		
Pet	Tally Marks	Number
		10
		4
	I	6

For example:

Can you collect your own data?

Instructions: Observe the chart and carry out a survey using a tally chart by asking the questions and recording the information from persons in your family. Draw and complete the table below in your notebook, take a picture of it and submit it to your teacher through WhatsApp.

Favorite Type of Fruit	Tally Marks	Total Number/Frequency
Banana		
Apple		
Mango
