

Teacher: Gabriela Olivas/Carolina Pereira

Nivel/Level: 3rd

Primer Semestre / First Semester

Tema/Topic: Distributive property

Instructions: Solve the following math problems by putting into practice the distributive property.

1. Joe broke up an array of 8×5 into two new arrays. Both of the new arrays are the same. What were the two arrays?

2. Mary broke up a large array into two smaller arrays. The two smaller arrays show 3×4 and 2×4 . What was the large array that Mary started with?
