

## Unit 5: Matter, part 1

Everything we can see or touch is \_\_\_\_\_.

Matter can be...

1. \_\_\_\_\_

2. \_\_\_\_\_

3. \_\_\_\_\_

Solid, liquid, and gas are called \_\_\_\_\_.

## Unit 5: Matter, part 2

Solids have their own \_\_\_\_\_ and always use the same amount of \_\_\_\_\_.

Liquids don't have their own \_\_\_\_\_ but they always use the same amount of \_\_\_\_\_.

Gas doesn't have its own \_\_\_\_\_ and it gets bigger to fill all the \_\_\_\_\_.

### Unit 5: Matter, part 3

Matter has ...

... \_\_\_\_\_. This is  
the \_\_\_\_\_ that  
matter occupies..

... \_\_\_\_\_. This is  
how heavy matter is.

Volume and mass are some of the  
\_\_\_\_\_ of matter.

### Unit 5: Matter, part 2

**bowling ball**

**basketball**

The \_\_\_\_\_ has more mass.

The \_\_\_\_\_ has more volume.
