

On What Do You Spend Your Pocket Money?

1. Read the text:

Hi! I'm Robert. I live with my parents and my elder sister Jessica in the south of England. We are very friendly indeed. Our parents love us and help us if we ask them for help.

Our parents give us pocket money every week for our needs. My sister gets more money because she studies at the college and

she needs more money for transport and for lunch. She also spends more money than I do. She often buys different rolls instead of lunch, thus she saves her money.

But the saved money she spends on lipsticks, mascara, creams, shadows, eyelashes and other useless, to my mind, things which I

even don't know how to name. I think she is a shopaholic because she buys something every day.

As for me I often try to save my pocket money. My parents have bought everything I need. But sometimes I want an ice-cream and, of course, I buy it because I like it very much!
