## DID YOU KNOW ... ?

- A** It isn't always hot and <sup>1</sup>*sunny / sun* in the desert! In January 2015, because of <sup>2</sup>*stormy / stormy weather*, there was enough <sup>3</sup>*snow / snowing* to build a snowman.
- B** Less than 1 mm of <sup>4</sup>*rain / raining* falls every year in Arica, in Chile. It would take 100 years to fill a coffee cup.
- C** The 'zonda' <sup>5</sup>*windy / wind* in Argentina is a dry wind that often carries dust over the mountains. When it happens, it makes the <sup>6</sup>*sunny / sun* look brown.
- D** When it's very <sup>7</sup>*wind / windy* in hilly places, <sup>8</sup>*snowy / snow* can move along the ground and make a snowroller.
- E** A moustache <sup>9</sup>*cloud / cloudy* forms when a cloud passes over a column of air. But be quick if you want a photo, it doesn't happen very often!
- F** It's so cold in the Antarctic that in some places the <sup>10</sup>*icy / ice* is more than 4,000 metres thick.
- G** The Grand Banks are shallow areas of water on the coast of Newfoundland, Canada. They have more than 200 <sup>11</sup>*foggy / fog* days every year.
- H** It can be very <sup>12</sup>*rain / rainy* in Kerala, India, but in 2001 the <sup>13</sup>*rain / raining* was red because it was carrying sand from the desert. Strange, isn't it?
