Listen to the audio and translate the text into English

Listen to the audio and write down what you hear in English:

1. _____ 2. _____ 3. _____
4. _____ 5. _____ 6. _____
7. _____ 8. _____ 9. _____
10. _____ 11. _____ 12. _____

Answer the questions in Chinese :

你今年多大? _____ 你多高? _____

“几” can indicate an indefinite number less than 10, followed by a measure word. For example:

Translate the phrases:

几个老师 _____

几本书 _____

A few chairs _____

A few students _____

When “几” is used after “十”, it indicates a number greater than 10 but less than 20, for example, “十几个人” (a dozen people or so); when used before “十”, it indicates a number greater than 20 while less than 100, for example, “几十个人” (dozens of people).

Translate the phrases:

三十几岁
几十本书

Dozens of students

Dozens of years

When the numeral is an integer greater than 10, “多” is put before the measure word. In this case, “多” and “几” are interchangeable. For example:

Translate the phrases:

二十多个月

七十多个人

十多个椅子

More than 50 months (51, 52, 53..... months)

More than 10 years (11,12,13.... Years)

“多” can be used together with numeral-measure word phrases. When the numeral is less than 10, “多” should be put behind the measure word. For example:

Translate the phrases:

三个多星期

五年多

六个多月

More than 5 months

More than 6 year
