

Name: _____

Subject: Mathematics

Standard Measurement

Exercise A

Choose the correct unit of measurement that is used to measure the following.

1.

length - _____

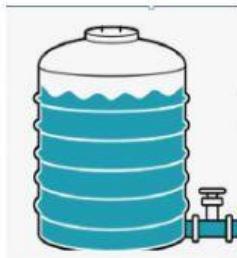

2.

distance - _____

3.

weight - _____

4.

liquid - _____

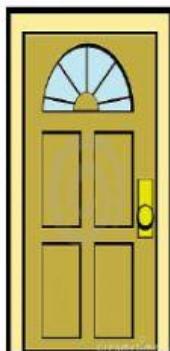

5.

weight - _____

6.

volume - _____

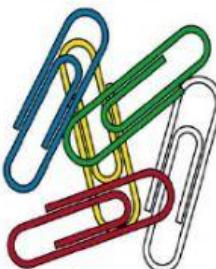

7.

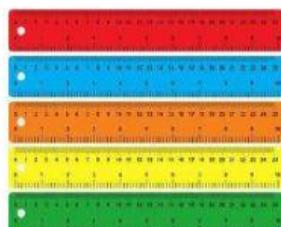

length - _____

Exercise B

Select the instruments that are used to determine the standard unit of measurement.

8.

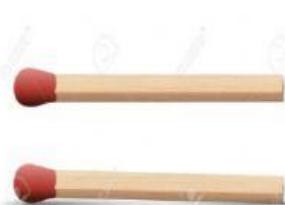

9.

10.

11.

12.

13.

Exercise C

Solve the problems below.

$$14. 6\text{kg} + 8\text{kg} = \boxed{}\text{kg}$$

$$18. 14\text{ml} + \boxed{}\text{ml} = 22\text{ml}$$

$$15. \boxed{}\text{m} + 14\text{m} = 20\text{m}$$

$$19. 20\text{g} - 15\text{g} = \boxed{}\text{g}$$

$$16. 15\text{cm} - 7\text{cm} = \boxed{}\text{cm}$$

$$20. 30\text{km} - 22\text{km} = \boxed{}\text{km}$$

$$17. 9\text{L} + 13\text{L} = \boxed{}\text{L}$$
