Moral Education Choice Activities - Week 7 - Term 3

LO: I can explore the importance of giving thanks to those who work voluntarily to make our society a better place.

Choice 1 – Story

Read the story and respond to the questions:

On a hot, sunny day, the students got to work and prepared fruit salad for construction workers and drivers. A fruit salad is a dish that consists of different types of fruit. It doesn't typically include vegetables, such as lettuce, despite the name. A fresh fruit salad is a common appetizer or dessert, which is very healthy and tasty. The nutritional content for a fruit salad is highly dependent upon the amount of syrup it contains.

All the students contributed Dh2 to bring water for the drivers, construction workers and the school staff. The water was distributed along with fruit salad by our school management. Our main objective was to thank the construction workers who work really hard on hot, sunny days without complaining, our drivers who also keep driving in the hot sun, and our school management who work hard day and night for the benefit of our school.

A big thank you to these wonderful human beings of our community, who play an integral part in our lives. Our step brightened up their lives and made them feel that they are very special.

- a. How do you think the workers felt when they received the fruit salad?

- b. How would you feel if you never received acknowledgement for something good that you did?

- c. Write a thank you card to someone in your community who you feel makes a difference.
