3. True or false?

John Lennon 1940-1980

John Lennon had an unhappy childhood. His father left home when he was five. His mother couldn't look after him, so John lived with his aunt Mimi until he was 19. When he was 17, his mother died in a car crash. He went to Quarry Bank High School in Liverpool. He met George Harrison and Paul McCartney, and in 1960, with the drummer Ringo Star, they started a band called The Beatles. The Beatles made their first successful song 'Love Me Do' in 1962.

They became famous in 1963, when they played more than 200 concerts. In 1964 they went to the United States for the first time and played on American television.

End of concerts

The Beatles stopped playing live concerts in 1966 because the audience made so much noise that nobody could hear the music. But they continued to record songs, and in 1967 they made the album Sgt Pepper's Lonely Hearts Club Band. The last album they recorded together was Abbey Road.

John Lennon married the artist, Yoko Ono, in 1969, and in 1970 The Beatles separated. John and Yoko moved to New York. John wrote and sang his most famous song 'Imagine' in 1971. In 1980 he recorded a new album, Double Fantasy. He was killed a month later. An American, Mark Chapman, shot him outside his New York apartment near Central Park. Two days before his murder John Lennon told an interviewer, "I feel safe in New York. I can go anywhere. It's my home"
