

Calcola l'apotema, il Perimetro e l'Area dei seguenti poligoni.

Esegui i calcoli sul quaderno e riporta i risultati

AB = 12 cm

$$a = \dots \times 0,866 = \dots \text{ cm}$$

$$p = \dots \times 6 = \dots \text{ cm}$$

$$A = \dots \times \dots : 2 = \dots \text{ cm quadrati}$$

LM = 30 cm

$$a = \dots \times 1,374 = \dots \text{ cm}$$

$$p = \dots \times 9 = \dots \text{ cm}$$

$$A = \dots \times \dots : 2 = \dots \text{ cm quadrati}$$

GH = 24 cm

$$a = \dots \times 1,038 = \dots \text{ cm}$$

$$p = \dots \times 7 = \dots \text{ cm}$$

$$A = \dots \times \dots : 2 = \dots \text{ cm quadrati}$$

PQ = 15 cm

$$a = \dots \times 0,688 = \dots \text{ cm}$$

$$p = \dots \times 5 = \dots \text{ cm}$$

$$A = \dots \times \dots : 2 = \dots \text{ cm quadrati}$$

MN = 50 cm

$$a = \dots \times 1,207 = \dots \text{ cm}$$

$$p = \dots \times 8 = \dots \text{ cm}$$

$$A = \dots \times \dots : 2 = \dots \text{ cm quadrati}$$
