(drag the answer in the table into the incomplete sentence)

Night of Takbir in Pandemic Era

On the night of takbir, the feast day yesterday, because in the pandemic era same as the previous year. My family and I to choose takbir nights at home because the government forbids going home.

This year's takbir night lonelier because takbir can only be done individually at home and there is no traveling outside. But there is no reason to do not celebrate the night of takbir, I and my family takbir night by chanting the verses of takbir as a form of Allah's greatness have victory to his people after going through the Ramadhan fasting period.

Takbir night in this pandemic era provided a lot of our learning about how to be grateful when we have time to gather with family, take care of one another and keep healthier lives. No matter what happens right now, the most important thing are we can still out fasting, takbir and Eid al-Fitr well. This is my experience.
