

Área del trapecio

Completa los huecos para calcular el área de las siguientes figuras, sigue la fórmula indicada:

$$\text{Área} = \frac{(\quad \square \quad \square \quad \square)}{\square}$$

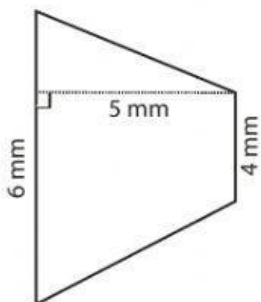

$$\text{Área} = \frac{(\quad \square \quad \square \quad \square)}{\square}$$

$$\text{Área} = \frac{(\quad \square \quad \square \quad \square)}{\square}$$

$$\text{Área} = \frac{\quad \square \quad \square \quad \square}{\square} = \frac{\square}{\square} = \quad \square \quad \square^{\square}$$

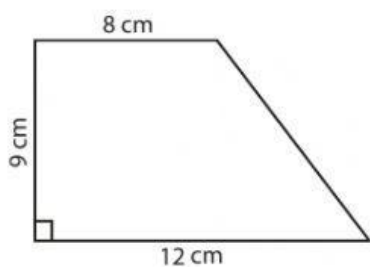

$$\text{Área} = \frac{(\quad \square \quad \square \quad \square)}{\square}$$

$$\text{Área} = \frac{(\quad \square \quad \square \quad \square)}{\square}$$

$$\text{Área} = \frac{(\quad \square \quad \square \quad \square)}{\square}$$

$$\text{Área} = \frac{\quad \square \quad \square \quad \square}{\square} = \frac{\square}{\square} = \quad \square \quad \square^{\square}$$

$$\text{Área} = \frac{(\boxed{} \times \boxed{})}{\boxed{}} \times \boxed{}$$

$$\text{Área} = \frac{(\boxed{} \times \boxed{})}{\boxed{}} \times \boxed{}$$

$$\text{Área} = \frac{(\boxed{} \times \boxed{})}{\boxed{}} \times \boxed{}$$

$$\text{Área} = \frac{\boxed{} \times \boxed{}}{\boxed{}} = \frac{\boxed{}}{\boxed{}} = \boxed{} \times \boxed{}^{\boxed{}}$$
