2) Lions are beautiful animals, but they're dangerous, too. They are sometimes friends with people, but it's not a good idea to be near them. They aren't like our gentle cats in the house. They're wild animals! They've got very big teeth and they like to eat meat. They hunt for other animals in the wild, like zebras and giraffes. They don't eat small animals like birds or insects. They need big meals! Lions live in Africa and Asia, but the biggest lions live in Botswana, a place in Africa.
