

Matter

Part 2. Atoms and molecules

1. Match the words and the definitions.

a molecule an atom a hundred water

- This is the smallest particle of matter. It's _____
- This is formed by two or more different atoms. It's _____
- H₂O molecules make _____
- There are approximately _____ different types of atoms.

2. Match each atom to the letter which represents it.

| |
|----------|
| Iron |
| Gold |
| Silver |
| Oxygen |
| Hydrogen |
| Carbon |

| |
|----|
| O |
| Ag |
| H |
| C |
| Au |
| Fe |
