

Matter

Part 2. Atoms and molecules

1. Match the words and the definitions.

a molecule an atom a hundred water

- This is the smallest particle of matter. It's _____
- This is formed by two or more different atoms. It's _____
- H₂O molecules make _____
- There are approximately _____ different types of atoms.

2. Match each atom to the letter which represents it.

Iron
Gold
Silver
Oxygen
Hydrogen
Carbon

O
Ag
H
C
Au
Fe
