

COMPARATIVES – 8TH GRADE

1. Read the text, find and write 4 characteristics mentioned on the table below.

Lee el texto, encuentra y escribe 4 características mencionadas en la tabla.

HAVE YOU MET ANY CHILEAN PEOPLE?

Chilean people are very friendly and helpful people, especially with visitors.

Up north people like to talk a lot and are very friendly, they live a calm life in the sun. People in Santiago tend to be more stressed out than the people in the rest of the Chilean cities, so they are more impatient and aggressive.

Once you start to move south you start to feel that everyone starts to do things much slower and they like to take their time.

I find that Chilean people are a really sociable culture, once they are in their social group, they all get together often. They find any excuse to gather their group together to spend time and have fun.

2. Complete the table with the adjectives from the activity 1 and transform them into a comparative. Then, write a comparative sentence.

Completa la table con los adjetivos de la actividad 1 y transfórmalos en un comparative.

Luego, escribe una oración comparativa.

Adjective	Comparative	Sentence
Ex: funny	funnier	I am funnier than my sister.
