Complete the text global warming with the words from the box. There are TWO words you will not need.

| In the 1980s, scientists found out that the (1) temperature of the Earth is rising. Today, global warming is increasing because more and more (2) are released into the atmosphere, which functions like a greenhouse. Light from the sun enters the atmosphere, is transformed into heat and cannot (3) | alternative atmosphere average |
|---|---|
| For a long time we didn't care about greenhouse gases. This changed when people started using more and more energy in the form of fossil fuels, like (4), gas and oil. We burn this energy to power factories, run our cars, produce (5) and heat our homes. Burning fossil fuels releases carbon dioxide into the atmosphere. Cutting down the world's forests has also led to climate change. | coal diseases droughts electricity engine |
| Effects of global warming Scientists have different opinions about how warm the earth's (6) may get. The increase in temperatures could range from 1.5° to 6° C by 2100. Warmer weather will make ice caps and (7) melt. Sea levels could rise dramatically. Extreme weather situations, like floods, (8) and damaging storms will also be more common. People in colder regions might welcome warmer weather but those who live in regions that are already hot may suffer from new (9) | environmental escape gases glaciers polar surface transport wind |
| At the same time some animals may not survive because they cannot adapt to the new environment. They could travel to other places in order to live there. | |
| Reducing global warming Finding a solution to solve the world's biggest (10) problem Although we need energy to make our economy grow there are things that fight this problem. Carpools or travelling by public (11) could the roads. You could turn off lights, TV sets, computers and other electrical need them. Companies have been spending a lot of money to produce thin energy. | could be done to d take many cars off items if you don't ags that use little |
| We also need to use more (12) energy, like sunlight, (13) or wave power. Car companies have started to produce a new type of car k works like an electric car but also has a small_petrol_(14) | nown as hybrids. It |
