Reading this surah is equal to reading 1/3 of the Quran.

Because people from all over Arabia came to worship the idols and they made money from that.

It is the story behind why the surah was revealed.

They asked him about Allah's family.

Surat Al-Ikhlās

The Asbaab An-Nazool of this surah is the idolators did like the Prophet teaching about only worshipping Allah. So, they asked the Prophet a strange question. They asked him about the family of Allah. Allah revealed Surat Al-Ikhlās to answer their question.

He would recite them 3x every night before going to sleep. He would also recite them when he was sick.
