A. Рубрика:

Her Majesty's Government, in spite of its name, derives its authority and power from its party representation in Parliament. Parliament is housed in the Palace of Westminster, once a home of the monarchy. Like the monarchy, Parliament is an ancient institution, dating from the middle of the thirteenth century. Parliament is the seat of British democracy, but it is perhaps valuable to remember that while the House of Lords was created in order to provide a council of the nobility for the king, the Commons were summoned originally in order to provide the king with money.

B. Рубрика:

The reigning monarch is not only head of state but symbol of the unity of the nation. The monarchy is Britain's oldest secular institution, its continuity for over a thousand years broken only once by a republic that lasted a mere eleven years (1649-60). The monarchy is hereditary, the succession passing automatically to the oldest male child, or in the absence of males to the oldest female offspring of the monarch. In law the monarch is head of the executive and of the judiciary, head of the Church of England, and commander-in-chief of the armed forces.

C. Рубрика:

The dynamic power of Parliament lies in its lower chamber. Of its 650 members, 523 represent constituencies in England, 38 in Wales, 72 in Scotland and 17 in Northern Ireland. There are only seats in the Commons debating chamber for 370 members, but except on matters of great interest, it is unusual for all members to be present at any one time. Many MPs find themselves in other rooms of the Commons, participating in a variety of committees and meetings necessary for an effective parliamentary process.

D. Рубрика:

Britain is a democracy, yet its people are not, as one might expect in a democracy, constitutionally in control of the state. The constitutional situation is an apparently contradictory one. As a result of a historical process the people of Britain are subjects of the Crown, accepting the Queen as the head of the state. Yet even the Queen is not sovereign in any substantial sense since she receives her authority from Parliament, and is subject to its direction in almost all matters. This curious situation came about as a result of a long struggle for power between the Crown and Parliament during the sixteenth and the seventeenth centuries.

E. Рубрика:

Her Majesty's Government governs in the name of the Queen, and its hub, Downing Street, lies in Whitehall, a short walk from Parliament. Following a general election, the Queen invites the leader of the majority party represented in the Commons, to form a government on her behalf. Government ministers are invariably members of the House of Commons, but infrequently members of the House of Lords are appointed. All government members continue to represent "constituencies" which elected them.

F. Рубрика:

Each parliamentary session begins with the “State Opening of Parliament”, a ceremonial occasion in which the Queen proceeds from Buckingham Palace to the Palace of Westminster where she delivers the Queen’s Speech from her throne in the House of Lords. Her speech is drafted by her government, and describes what the government intends to implement during the forthcoming session. Leading members of the Commons may hear the speech from the far end of the chamber, but are not allowed to enter the House of Lords.

Imagine that you are preparing a project with your friend. You have found some interesting material for the presentation and you want to read this text to your friend.
You have 1.5 minutes to read the text silently, then be ready to read it out aloud.
You will not have more than 1.5 minutes to read it.

Weather and climate are the words that we often use when we talk to each other. Sometimes we don't understand that these are two different things. Weather is the state or conditions over a short period of time. Usually, it's a day or so. Climate is the typical conditions that we expect at a certain place at a certain time. While weather changes day to day, climate does not change for a much longer period.

Now there are a lot of factors that influence weather and climate. Human activities are changing both in many ways. Global warming is an example of climate change. As for weather, it is becoming more and more difficult to predict it. People must put a lot of effort to improve the situation. The future of our planet is in our hands, we should do our best to save it.
