**TEXT A :** Kuta Beach is located on the western side of the island's narrow isthmus and is considered Bali's most famous beach resort destination. Kuta Beach is also minutes away from the Ngurah Rai International Airport in Tuban. The nearby resorts of Tuban, Legian and Seminyak are all within close walking distance. Once a simple, rustic and quiet fishing village, Kuta Beach has witnessed a transformation over the past years due to the rise of various accommodations, dining and shopping options. The rapid growth owes much to visitors, beachcombers and art lovers from nearby Australia. Expatriates also helped pioneer surfing in Kuta, as well. Although a rather frenzied traffic scene has become commonplace here, Kuta Beach continues to attract thousands of visitors every year with its unique charm. During the peak season from July to August and the holiday season for Christmas and New Year, Kuta Beach is regularly fully-booked by travelers looking forward to a pleasant and affordable Bali escape.

**TEKS B :** A shopping mall is a modern, term for a form of shopping precinct or shopping center, in which one or more buildings form a complex of shops representing merchandisers with interconnecting walkways that enable customers to walk from unit to unit. A shopping arcade is a specific form serving the same purpose. Both types of facilities usually have large parking lots, face major traffic arterial, and have few pedestrian connections to surrounding neighborhoods. In the United Kingdom and Ireland, "malls" are commonly referred to as shopping centers. Mall primarily refers to either a shopping mall – a place where a collection of shops all adjoin a pedestrian area – or an exclusively pedestrianized street that allows shoppers to walk without interference from vehicle traffic. In North America, mall is generally used to refer to a large shopping area usually composed of a single building which contains multiple shops, usually "anchored" by one or more department stores surrounded by a parking lot.

**TEXT C :** Taman Impian Jaya Ancol otherwise known as Ancol Dreamland is an integral part of Ancol Bay City, a resort destination located along Jakarta's waterfront, in Ancol Pademangan, Indonesia. It is owned by PT. Pembangunan Jaya Ancol Tbk, a subsidiary of Pembangunan Jaya Group. Ancol Dreamland opened in 1966 and is currently the largest integrated tourism area in South East Asia, boasting an international championship golf course, a theme park, hotels and other recreational facilities such as ferris wheel (Big wheel). There are 27 rides at Fantasy World, 8 pools at Atlantis Water Adventure and 8 shows at Ocean Dream Samudra. Before Ancol Dreamland, Ancol was a mosquito-infested swamps and fish ponds, and the source of century-old malaria outbreak in Batavia. The idea to convert the marshy area of Ancol into Jakarta's largest entertainment center, with housing and industrial estates adjoining it, was proposed by President Sukarno in the early 1960s. The idea opposed the initial idea to convert the area of Ancol into a purely industrial area. Actual development of Ancol was started during the tenure of Ali Sadikin, the governor of Jakarta in 1966. The entertainment complex was named Taman Impian Jaya Ancol or Ancol Dreamland. The first facility was the Bina Ria Ancol beach, best known for its drive-in theater especially during the 1970s, then followed with a golf course, swimming pool, oceanarium, Putri Duyung cottage, Hotel Horison and its casino.

**TEXT D.** Overview At 3,195 meters above sea level, Mount Dempo is the highest mountain in South Sumatra. Along with Mount Marapi on Sumatra, (not to be confused with Mt. Merapi in Central Java), Mt. Dempo is the highest peak in the Bukit Barisan mountain range that stretches along the entire island of Sumatra, forming its backbone. After sipping a cup of hot sweet tea in the cool dawn, listening to birds chirp in the trees and watching the sun slowly rising on the horizon, this is the perfect morning to hike up to the top of Mount Dempo. The most recent activity has been in 2009. Historical activity has been confined to being small-to-moderate explosive activity that produced ash fall near the volcano. Located right on the border between the provinces of South Sumatra and Bengkulu on Sumatra's west coast, Mount Dempo lies in the district called Pagar Alam. And, as the name implies, Pagar Alam, meaning nature's fence, is entirely surrounded by hills and mountain ridges. It takes some 7-hours driving to reach Pagar Alam from Palembang, and then another 15 kilometers from the center of Pagar Alam to Mount Dempo itself.
