Practice

Round each decimal to the nearest tenth.

1. 4.382 _____

2. 17.32 _____

3. 36.29 _____

4. 0.367 _____

5. 8.88 _____

6. 0.98 _____

7. 9.725 _____

8. 82.42 _____

9. 105.48 _____

Round each decimal to the nearest hundredth.

10. 2.648 _____

11. 3.928 _____

12. 14.083 _____

13. 31.115 _____

14. 0.082 _____

15. 312.253 _____

16. 6.481 _____

17. 4.289 _____

18. 78.190 _____

19. 74.998 _____

20. 5.042 _____

21. 22.319 _____

Round each decimal to the nearest whole number.

22. 16.25 _____

23. 0.254 _____

24. 18.4 _____

25. 0.863 _____

26. 135.43 _____

27. 59.92 _____

Problem Solving

Solve each problem.

28. Patrice says that 5.69 rounds to 6. Miguel says that it rounds to 5.7. Who is correct: Patrice, Miguel, both, or neither?

29. Kitty says her race time rounded to the nearest second was 11 seconds. Her actual time was given in hundredths. What is the slowest time Kitty could have run?
