

## MEDIDAS DE CAPACIDAD REDUCCIONES

### 1.- Complete.

$$4000\text{ml} = \boxed{\phantom{000}} \text{ l} \quad 70\text{dl} = \boxed{\phantom{000}} \text{ cl} \quad 300\text{l} = \boxed{\phantom{000}} \text{ hl}$$

$$4\text{l} = \boxed{\phantom{000}} \text{ dl} \quad 6\text{l} = \boxed{\phantom{000}} \text{ cl} \quad 5000\text{ml} = \boxed{\phantom{000}} \text{ l}$$

$$900\text{cl} = \boxed{\phantom{000}} \text{ l} \quad 300\text{l} = \boxed{\phantom{000}} \text{ dal} \quad 40\text{ml} = \boxed{\phantom{000}} \text{ cl}$$

2.- Complete el cuadro. Expresa la capacidad en litros, decilitros, centilitros y mililitros.

| Litros | Decilitros | Centilitros | Mililitros |
|--------|------------|-------------|------------|
| 4l     |            |             |            |
|        |            |             | 9000ml     |
|        |            | 300cl       |            |
|        | 560 dl     |             |            |
|        |            |             | 2000l      |
| 8l     |            |             |            |
