

❖ Clasifica los alimentos según su origen:

|                                                                                    |                                                                     |                                                                                    |                                                                     |                                                                                      |                                                                     |
|------------------------------------------------------------------------------------|---------------------------------------------------------------------|------------------------------------------------------------------------------------|---------------------------------------------------------------------|--------------------------------------------------------------------------------------|---------------------------------------------------------------------|
|   | <input type="checkbox"/> animal<br><input type="checkbox"/> vegetal |   | <input type="checkbox"/> animal<br><input type="checkbox"/> vegetal |   | <input type="checkbox"/> animal<br><input type="checkbox"/> vegetal |
|   | <input type="checkbox"/> animal<br><input type="checkbox"/> vegetal |   | <input type="checkbox"/> animal<br><input type="checkbox"/> vegetal |   | <input type="checkbox"/> animal<br><input type="checkbox"/> vegetal |
|  | <input type="checkbox"/> animal<br><input type="checkbox"/> vegetal |  | <input type="checkbox"/> animal<br><input type="checkbox"/> vegetal |  | <input type="checkbox"/> animal<br><input type="checkbox"/> vegetal |

❖ Une el concepto con su respectivo alimento:

|                                     |                                                                                       |
|-------------------------------------|---------------------------------------------------------------------------------------|
| ALIMENTOS ENERGÉTICOS               |  |
| ALIMENTOS PROTECTORES O REGULADORES |  |
| ALIMENTOS CONSTRUCTORES             |  |
