

EXAM PRACTICE

1. Drag and drop the parts of the plant.

2. Match the parts of the plant to their function.

- Make food for the plant.
 - Absorb water and nutrients.
 - Transport water and nutrients around the plant.
 - Make seeds for the plant.
- Flower
 - Stem
 - Leaves
 - Roots

3. Drag and drop to complete the process of photosynthesis.

OXYGEN	CARBON DIOXIDE	WATER	MINERALS	SUNLIGHT
--------	----------------	-------	----------	----------

4. Read and choose True or false.

- Plants make their own food. TRUE FALSE
- Plants are herbivores, they eat other plants. TRUE FALSE
- Plants absorb oxygen to make plant food. TRUE FALSE
- Seeds are like baby plants. TRUE FALSE
- The leaves absorb minerals and water from the soil. TRUE FALSE
- The roots take in sunlight. TRUE FALSE
- The leaves absorb sunlight and make plant food. TRUE FALSE
- The stem is like a road to transport nutrients around the plant. TRUE FALSE
