> **Area:** The region covered by a closed region
>
> **Perimeter:** The distance around the closed figure.

Find the following:

Area=56cm²
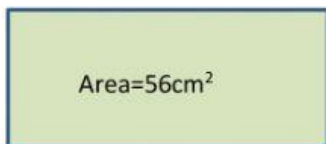

l = 8cm
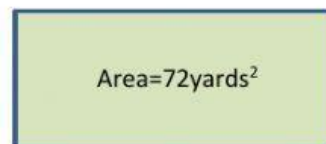

Width = _____

Perimeter = _____

Area=72yards²   w = 8yards

length = _____

Perimeter = _____

Perimeter=56cm

l =20cm

Width = _____

Area = _____cm²

15ft

Perimeter = _____

Area = _____ft²

For the given square shaped field, find the area. Also find the cost of fencing it @Rs.30/cm.

Perimeter = 56cm

Area = _____cm²

Cost of fencing 1cm = _____

Cost of fencing the given field = _____

For the given rectangular shaped garden, the sum of length and width is 50m.Find the cost of making a hurdle around it @Rs.4 per meter.

Cost of making hurdle around the rectangular shaped garden is Rs. _____
