

Song - "Everywhere", by The Beatles

1.- Choose (or guess) the correct option to complete the lyrics.
Then listen to the song and correct if necessary.

To have / lead a better life,
I want / need my love to be here

Here,
making each day of the year / week
Changing my day / life with a wave
of her wand / hand
Nobody can say / deny
that there's something here / there

There,
running my fingers / hands through her hair
Both of us saying / thinking how good it can be
Someone / No one is speaking
But she doesn't know I'm / he's there

I love / want her everywhere
And if she's beside / next to me
I know I need never care / worry
But to love her is to please / need her
Everywhere
Learning / Knowing that love is to share
Each one believing that love never / sometimes dies
Watching their lies / eyes
And hoping I'm for ever / always there

[I will] be there
and everywhere
Here, there and everywhere

2.- **Without looking back at the lyrics**, select the correct phoneme in the words:
