

FORMS OF ENERGY

Horizontales

- 3 All objects have this form of energy stored
- 6 This form of energy is released during a chemical reaction
- 7 This form of energy can be natural or artificial

Verticales

- 1 This form of energy is a sum of the kinetic and potential energy
- 2 This form of energy provides power to machines. It can be converted into light, heat, sound and movement
- 4 This energy comes from a heated substance. It moves from warmer objects to cooler ones
- 5 All objects have this form of energy when they are moving
