

1. READING – MY FAVORITE THINGS!

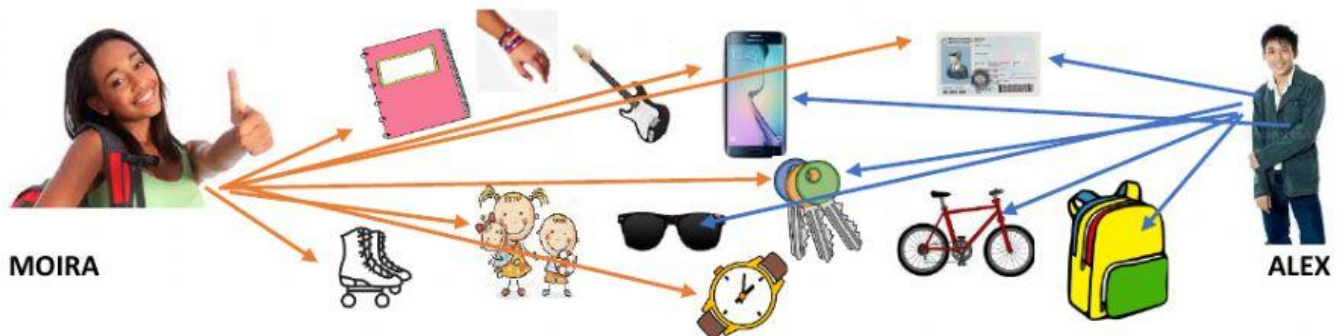

I am Andrea. I am fifteen years old. I have got two favorite things...

One in my laptop. I can't live without it. I use my laptop every day for school and for playing online games with friends. My second favorite item is my guitar. I love music and playing the guitar. It's my favorite musical instrument in the world.

I like my green watch, too. But it's not my favorite object. I have got three more watches. They're of different styles and colours. I haven't got wristbands; I don't like them...
