_____.
3. Is their farm big?
_____.
4. Is Jose married?
_____.
5. Is he a potato farmer?
_____.
6. Is it hot in Mexico in the summer?
_____.

DIFFERENT FARMERS

Sofia is from Poland and she and her husband, Yaroslaw, are potato farmers. They have a big farm of about 55 hectares. The weather in Poland is good for potatoes because it is cool and wet in the summer. People in Poland eat a lot of potatoes. Some of the potatoes are for their family but they sell some of their potatoes to other countries, like Germany and England.

Jose is also a farmer and he comes from Yucatan in Mexico. He is twenty-four years old and he is married with three small children. He is not a potato farmer. He is a maize farmer, and he also grows beans. The summer in Mexico is very hot and wet, and this is good for maize and beans. His wife makes *tortillas* from the maize and their children love tortillas with beans.
