

The Magic South

Cuycita is ten years old and lives here on the magic south. Do you know the south? It is Nariño, a very beautiful place, full of wonderful landscapes with a lot of mountains, forests, rivers and a beach in Tumaco.

Why is the south magic? Cuycita says: "Pay attention".

Here you can find a variety of climates, extraordinary people, many touristic places and traditional food. We have fantastic tales for example The baby Auca, Inti's call and others. When people are hungry, they can eat roasted guinea pig, empanadas, quimbolitos, delicious coffee and melcochas.

My family and I usually visit the special sights in our department; we always go to the Sanctuary of Las Lajas in the Holy Week, we often go to La Cocha on weekends and we sometimes go to the Azufral Volcano in August.

In the beginning of the year Nariñenses and tourists enjoy the Black and White Carnivals that represent our culture and traditions.

This is the land of my ancestors. I am Cuycita, I am from the south, I am proud of my region. The end.

Read the next questions and answer **YES / NO**
