

## WORKSHEET

Refer to the figure and classify the relationship between each pair of angles as *alternate interior*, *consecutive interior*, *alternate exterior* or *corresponding interior angles*.

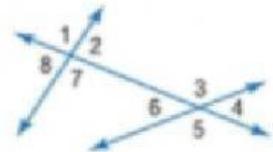

- 1)  $\angle 3$  and  $\angle 5$  are

- A) Alternate interior angles
- B) alternate exterior angles
- C) Consecutive interior angles
- D) Corresponding angles

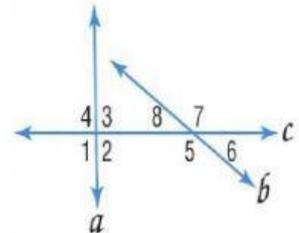

- 2)  $\angle 1$  and  $\angle 5$  are

- A) Alternate interior angles
- B) Alternate exterior angles
- C) Consecutive interior angles
- D) Corresponding angles

- 3)  $\angle 4$  and  $\angle 8$  are

- A) Alternate interior angles
- B) Alternate exterior angles
- E) Consecutive interior angles
- F) Corresponding angles

- 4)  $\angle 2$  and  $\angle 5$  are

- A) Alternate interior angles
- B) Alternate exterior angles
- G) Consecutive interior angles
- H) Corresponding angles
