

Name: \_\_\_\_\_

Listen to a passage and fill in the blanks.

Pollution is now a (1) \_\_\_\_\_ all over the world. It affects the (2) \_\_\_\_\_ but it also affects countries and wild animals.

How does pollution affect countries? When the air is so polluted with gases (3) \_\_\_\_\_, the air also (4) \_\_\_\_\_. As a result of this, the Earth becomes hotter, the ice in (5) \_\_\_\_\_ melt. Then, the (6) \_\_\_\_\_. Some countries have very low land. These countries will soon (7) \_\_\_\_\_ if we do not reduce the pollution now.

How does pollution affect animals? Our (8) \_\_\_\_\_, for example, are the most deadly affected. All the rubbish that is thrown into the drains and onto the beach (9) \_\_\_\_\_. The rubbish (10) \_\_\_\_\_. Fish and turtles die after eating our rubbish. After a while, we will (11) \_\_\_\_\_ to eat. In fact, fishermen all over the world are already complaining about (12) \_\_\_\_\_.

from cars, factories and open burning	end up in the rivers and sea	sea turtles and fish	sea level becomes higher
the lack of fish in the sea	north and south poles	poisons the water	serious problem
not have any fish	environment badly	disappear under the sea	becomes hot
