

The life cycle of a butterfly

1 CD 3 16

Listen, read and write the words.

- 1 The butterfly starts as a very small egg on a leaf. Butterfly eggs can be many shapes.
- 2 What comes from the egg? Not a butterfly, but a caterpillar! The caterpillar eats a lot of the leaves on the plants around it. It grows bigger and bigger.
- 3 When the caterpillar stops growing, it has a hard, brown skin called a chrysalis. The chrysalis hangs from a plant. Inside the chrysalis, the caterpillar is changing.
- 4 When the chrysalis opens, a butterfly comes out. After a few hours, the butterfly opens its wings and flies away.

I. READ and CHOOSE YES or NO

- | | |
|---|----------|
| 1. All butterfly eggs are round | YES / NO |
| 2. The butterfly comes from the egg | YES / NO |
| 3. The caterpillar eat flowers | YES / NO |
