Read the passage and choose the correct word or phrase that best fits each of the numbered blanks.

Many parents believe that they should begin to teach their children to read when they are scarcely more than toddlers. This is fine if the child shows a real interest but 1 a child could be counter-productive if she isn't ready. Wise parents will have a 2 attitude and take the lead from their children. What they should provide is a selection of 3 toys, books, and other activities. Nowadays there is plenty of good 4 available for young children, and of course, seeing plenty of books in use about the house will also 5 them to read.

Of course, books are no longer the only source of stories and information. There is also a huge range of videos, which can reinforce and extend the pleasure a child finds in a book and are 6 valuable in helping to increase vocabulary and concentration. Television gets a bad review as far as children are concerned, mainly because too many spend too much time watching programs not intended for their age 7 . Too many television programs induce an incurious, uncritical attitude that is going to make learning much more difficult. 8 , approved viewing of programs designed for young children can be useful. Just as adults enjoy reading a book after seeing it serialized on television, so children will pounce on books which 9 their favorite television characters, and videos can add a new dimension 10 a story known from a book.

Read and choose the correct answer.

Walt Disney was born in 1901 in Chicago but soon moved to a small farm near Marceline, Missouri. From this rural and rather humble beginning, he later became one of the most famous and beloved motion-picture producers in history. Although he died in 1966, his name and artistic legacy continue to influence the lives of millions of people throughout the world.

After several years of barely making ends meet as a cartoon artist operating from his Los Angeles garage, Disney had his first success in 1928, with his release of a Mickey Mouse cartoon. Throughout the next decade, he continued to produce a number of cartoons, and develop more of his highly profitable and enduring creations, such as Donald Duck and Pluto. In the late 1930s, he issued a full-length cartoon film. Snow White became an instant commercial and

critical success. This was only the first of many films, both animated and not, produced by Disney and his studio.

But as **renowned** as Disney name is for cartoons and movies, it is probably best known for a string of spectacular amusement and theme parks. Starting with California's Disneyland in 1955 and culminating with the fantastically successful Disney World and EPCOT Center in Florida, Disney became a household name. In recent years, the theme park **concept** became international, with openings in Tokyo and Paris. With the continuing success of Disney, the creation of future theme park is under discussion.
