3. Read the dialogue and answer the questions.

Teacher : Let's talk about how to prepare for natural disasters. Does anyone know the best way to prepare for a tornado?
Jane : You should go into an underground shelter with supplies.
Teacher : What kind of supplies should you have?
Tom : You should have as much water and canned food as possible.
Jane : And a flashlight with lots of new batteries.
Tom : A first aid kit is the most important thing to have.
Teacher : Is it better to stay in your house or to evacuate?
Jane : It is better to evacuate than stay in your house.
Tom : If you have time, it is better to evacuate. If you don't have enough time, it is safer to stay in your house.
Teacher : What is the best way to stay informed about what is happening?
Jane : The best way to stay informed about what is happening is to listen to the radio.

a. What is the most important thing to have in the shelter?

_____

b. What kind of supplies should you have the most of?

_____

c. When is it better to stay in your house than to evacuate?

_____

d. What is the best way to stay informed?

_____

e. What are the most important items to have with your flashlight?

_____

4. You will hear four different people talking about natural disasters. For questions 1 - 4, choose from the list A - E what each speaker says. There is one extra letter which you do not need to use. Track 23

Speaker 1		**A.** Tornadoes are more dangerous than hurricanes.
Speaker 2		**B.** It's difficult to predict exactly when an earthquake will occur.
Speaker 3		**C.** A tsunami is more damaging than a flood.
Speaker 4		**D.** The heat from the lava flow can be more intense than the heat from a forest fire.
		E. Avalanche potential is a larger danger than frostbite when skiing or snowboarding in deep snow.
