

## SOCIAL MEDIA SAFETY - 8<sup>TH</sup> GRADE

### UNIT 1: INFORMATION AND COMMUNICATION TECHNOLOGIES

NAME: \_\_\_\_\_ Score: \_\_\_\_ /16 Grade: \_\_\_\_\_

### **Teaching Kids to Be Smart About Social Media**

Most teens use social media and have a profile on a social networking site. There are plenty of good things about social media — but also many risks and things kids and teens should avoid.

#### **What's Good About Social Media**

Social media can help kids stay connected with friends and family, enhance their creativity by sharing ideas, music, and art, meet and interact with others who share similar interests, among other things.

#### **What's Bad About Social Media**

Most teens post photos of themselves online or use their real names on their profile, reveal their birthdates and interests or post their school name and the town where they live. This can make them easy targets for online predators and others who might mean them harm.

#### **What Can We Do? It's important to:**

- **Be nice.** Mean behavior is not OK. Treat others with respect, and never post hurtful or embarrassing messages.
- **Think twice before hitting "enter."** What you post can be used against you. You should avoid posting specific locations of parties or events, as well as phone numbers.
- **Use privacy settings.** Passwords are there to protect you against things like identity theft. You should never share them with anyone, even a boyfriend, girlfriend, or best friend.
- **Don't "friend" strangers.** "If you don't know them, don't friend them." This is a plain, simple — and safe — rule of thumb.

#### **1. Read the text. Then, read the sentences and transform them into suggestions using you should or you shouldn't. (10 pts)**
