

## Quantifiers

Read about a dream a boy had and choose the correct quantifier to complete the statements.

It seemed Charles had had (1) much lots of assignments at school that semester. How (2) much many did they have to read last week? At least two complete researches about science.

(3) Many A little students, as Charles, didn't like reading. As there weren't (4) much many books in the library, they decided to read from internet. Science was the only subject he knew very (5) a lot little of. It didn't interest him that much. (6) A few Few classmates understood the topic, so they gathered in Charles' house to work together. As time passed by and they couldn't find the information, they decided to copy an already made report. There was (7) little lots of doubt that they would win the contest and good grades to pass the semester.

(8) More Much time and money was spent on the presentation, but one of them discovered the author of the report was their teacher! Needless to say they were desperate because the assignment was due the next day and there wasn't (9) any much to do. Suddenly, (10) some any annoying sound broke the silence, it was his alarm clock! All was a nightmare and there were still two weeks to hand in the report!
