

Clara's Garden

This is Clara. She grows flowers in her garden. In the spring, the flowers are small. She takes care of them and watches them grow.

In the summer, the flowers are big. It's hot, so she waters them. They are different colors: pink, yellow, and orange. The honeybees like Clara's flowers.

In the fall, she covers her flowers with old leaves.

In the winter, the flowers don't grow. There is snow on the ground. She puts out food for the birds.

There are flowers next to the pond.

The honeybees make honey.

She makes houses for animals from leaves.

She takes care of the birds.

B Read the captions again and complete the sentences.

- 1 In the spring, Clara grows flowers next to the pond.
